DCT

This colour is produced with DeepColour™ Technology* and offers a darker, deeper, richer colour appearance, reduced whitening caused by impact, heat or thermoforming and reduced sanding time to achieve the desired finish than former versions. (*Patent pending)

* Dark colours of Corian® tend to show every day wear and tear, including light scratching, more readily in high use horizontal areas (eg. kitchen benchtops). To ensure we meet your expectations, customers should be aware of the extra care needed. Scratching is not considered a product defect and hence not covered by the 10-year warranty.
